Toxics Release Inventory Phase 3; Chemical Use; Notice of Public Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA will hold a 2-day public meeting to receive public comments on whether to expand the reporting requirements of the Toxics Release Inventory (TRI) to include chemical use data.

DATES: The meeting will take place on September 19 and 20, 1995, at 9 a.m. at Waterside Towers, Conference Room, 907 6th St. SW., Washington, DC 20024.

FOR FURTHER INFORMATION CONTACT: The Toxic Substances Control Act Hotline, Environmental Assistance Division, Office of Pollution Prevention and Toxics, 7408, Environmental Protection Agency, 401 M St. SW., Washington, DC 20460, Telephone: (202) 554-1404, e-mail: TSCA-Hotline@epamail.epa.gov. Attention: Administrative Record No. AR 128.

SUPPLEMENTARY INFORMATION: On August 8, 1995, the President issued Executive Order 12969 (EO) which requires that companies providing supplies and services to the Federal Government shall be in compliance with the Emergency Planning and Community Right-to-Know Act of 1986 (EPCRA) and the Pollution Prevention Act of 1990 (PPA). According to the EO, these acts "established programs to protect public health and the environment by providing the public with important information on the toxic chemicals being released into the air, land and water in their communities by manufacturing facilities." In a memorandum to the Administrator of the U.S. Environmental Protection Agency and the Heads of Executive Departments and Agencies dated August 8, 1995, the President directed the Administrator to develop and implement "an expedited, open and transparent process for consideration of reporting under EPCRA on information on the use of toxic chemicals at facilities, including information on mass balance, materials accounting, or other chemical use data, pursuant to section 313(b)(1)(A) of EPCRA. . . . EPA shall report on the progress of this effort by October 1, 1995, with a goal of obtaining sufficient information to be able to make informed judgements concerning implementation of any appropriate program."

EPA began a review process last year and on September 2, 1994, the Agency made available to the public an issues paper entitled "Expansion of the Toxics Release Inventory (TRI) to gather chemical use information: TRI-Phase 3: Use Expansion." The paper was used to provide an overview of the issues which include input data such as the quantity of chemicals brought onsite, and out-put data such as the quantity consumed and the quantity sent off-site in products. EPA also sought to explore the issue of adding occupational demographics data elements to the TRI; the number of workers potentially exposed to a chemical, and whether or not occupational exposure monitoring has been performed. The issues paper served as the basis for discussion at a

public meeting held on September 28, 1994.

EPA has reviewed comments from the meeting, evaluated a variety of the issues mentioned and has produced an updated issues paper. The purpose of the second paper is to report back to stakeholders, to draw preliminary conclusions on some issues, to focus attention to important unresolved questions, and to provide a focus for discussion at the September 19-20, 1995 public meeting. Copies of this paper will be available Tuesday, September 5, 1995, from the address and telephone number listed under **FOR FURTHER INFORMATION CONTACT**. Oral statements will be scheduled on a first-come, first-served basis by calling the telephone number listed under **FOR FURTHER INFORMATION CONTACT**. EPA encourages meeting participants to provide written statements and to submit the statements in advance of the meeting. In order to schedule speakers and accommodate attendees, please contact EPA under **FOR FURTHER INFORMATION CONTACT** by September 12, 1995.
